LONDON METROPOLITAN UNIVERSITY
INTERNATIONAL STUDY CENTRE

Study **Health** with London Metropolitan University

As a London Metropolitan University International Study Centre student, you have the opportunity for guaranteed progression to a range of Health programmes.

Scholarships of up to **£6,000**

Here is a selection of degrees students can progress to:

Biomedical Science (BSc Hons)

This degree provides a comprehensive understanding of human health, disease and the biological processes that underpin modern healthcare. You will develop practical skills in laboratory techniques, molecular biology, microbiology, pathology and scientific data analysis while applying your knowledge through laboratory-based learning, research projects and the study of disease diagnosis and treatment. Accredited by the Institute of Biomedical Science (IBMS), the course prepares graduates for careers in biomedical science, healthcare, research, biotechnology and the pharmaceutical industry, while also providing a strong foundation for postgraduate study.

Pharmacology (BSc Hons)

This degree provides a comprehensive understanding of how drugs interact with living systems and their role in preventing and treating disease. You will develop practical skills in pharmacology, physiology, laboratory techniques, experimental design and scientific research while applying your knowledge through practical laboratory work, data analysis and real-world case studies. The course prepares graduates for careers in the pharmaceutical and biotechnology industries, clinical research, drug development and regulatory affairs, while also providing a strong foundation for postgraduate study.

Nursing (Adult) (BSc Hons)

This degree provides a comprehensive understanding of adult nursing, compassionate care and evidence-based clinical practice. You will develop practical skills in patient assessment, clinical decision-making, communication and leadership while applying your knowledge through simulation-based learning and over 2,300 hours of clinical placements across a range of healthcare settings. Designed in partnership with healthcare providers, the course prepares graduates for registration as adult nurses and careers within the NHS, private healthcare and community services, while also supporting continued professional development and postgraduate study.

Your route to London Metropolitan University

You can qualify for entry to a Health degree at the London Metropolitan University depending on what pathway programme is right for you. The International Foundation Programme can help you enter your chosen degree by bridging the gap between your current academic and English language qualifications and the knowledge you need for your degree.

LONDON METROPOLITAN UNIVERSITY

Integrated Visa (International Foundation + Degree Programme)

2 Terms **International Foundation Programme**

Undergraduate Degree

Year 1 **Year 2** **Year 3**

You will study the following modules:

- English and Academic Skills for Scientists
- Foundations of Biology for Health Sciences
- Mathematics for Life Scientists
- Foundations of Chemistry

You can progress to the following degrees:

- Biomedical Science BSc (Hons)
- Biological Science BSc (Hons)
- Pharmacology BSc (Hons)
- Pharmaceutical Science BSc (Hons)
- Physiotherapy BSc (Hons)
- Nursing (Adult) BSc (Hons)
- Nursing (Mental Health) BSc (Hons)

£5,000
Progression Scholarship per year of study for all courses + Early payment discount

"London Met takes chances on people. The University gave me the opportunity to discover myself, develop and start achieving my dreams."

Margarita, from Albania
Biomedical Science BSc (Hons) (Student at London Metropolitan University)
